

WINDOW REGULATORS

Parts Mountain is a premium supplier of aftermarket parts. We use high-quality materials, stringent testing and innovation to provide customers with parts that meet or exceed OE quality and performance. Utilizing precise manufacturing to ensure a long service life, perfect fit, and reduce fatigue.

1. PREMIUM QUALITY PARTS

You can count on premium quality parts being used throughout our Window Regulators for improved reliability and durability.

2. OE PLUG & PLAY HARNESSES

There is no wire splicing required thanks to the OE plug & play harnesses used in our window regulator design.

3. PREMIUM CABLE SHEATHING

The use of premium cable sheathing in our Window Regulators eliminates cable compression.

4. SELF-LUBRICATING TECHNOLOGY

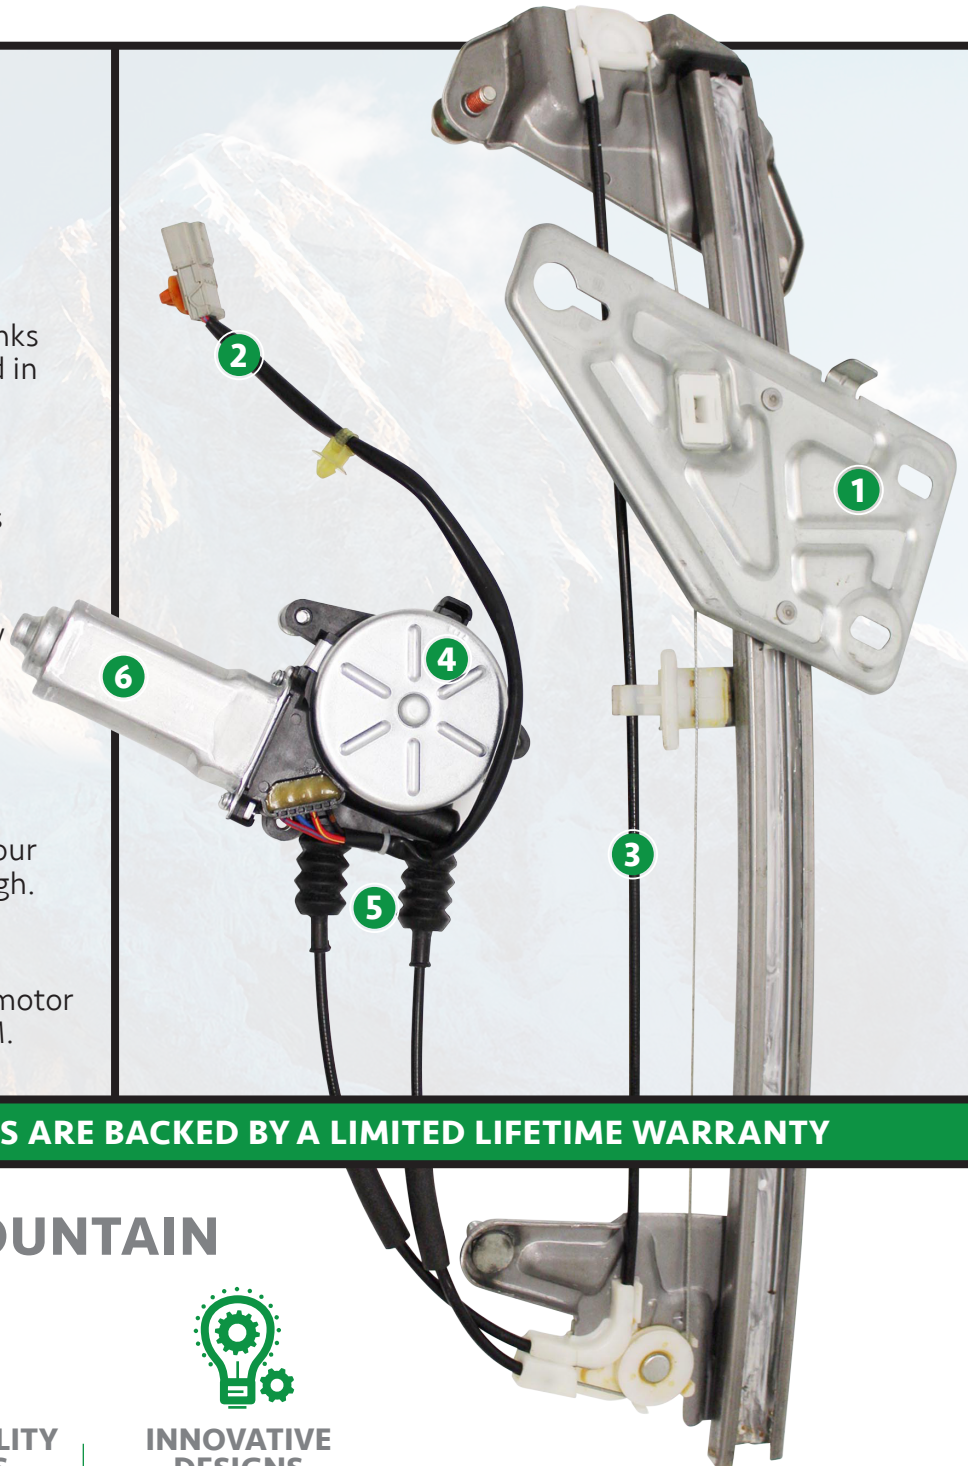

By utilizing self-lubricating technology on our window regulators, you will notice quiet operation, while also reducing friction and abrasion to extend the lifespan of the motor.

5. STEEL CAPPED ENDS

The steel capped cable ends used in our Window Regulators resist pull through.

6. ANTI-PINCH MOTOR

Our anti-pinch motor reduces risk to passengers. We utilize the anti-pinch motor where originally supplied by the OEM.

OUR WINDOW REGULATORS ARE BACKED BY A LIMITED LIFETIME WARRANTY

TRUST THE MOUNTAIN

PRECISE MANUFACTURING

Ensure a perfect fit to reduce fatigue.

HIGHEST QUALITY MATERIALS

We use only premium materials in our parts.

INNOVATIVE DESIGNS

Improve on OE design for safety and performance.
